

ePortfolio Planning Activity

About Me:

Is there one or more themes that thread throughout your goals, accomplishments, work, projects, etc.? What would you want to highlight and direct your audience to read more about within your ePortfolio?

Mind Map exercise

1. Name in the middle
2. Surround your name with word bubbles, listing jobs and other work experiences, volunteer work, hobbies, classes, leadership experiences, what is important to you, what is important about you.
3. Make links between similar items.
4. Can you find themes or threads within these similar items? (Health, Creativity, Community, Communication, Family, Teamwork, Leadership, Justice, Diversity, etc.)

What to include in an ePortfolio?

- What skills, experiences, and knowledge would you like to showcase?
- Explain how these skills, experiences, and knowledge are relevant to your goals, or the goals of your organization?
- What documents, media, other artifacts represent and demonstrate the experience, skills, and knowledge you have?

Reflection on an accomplishment:

Name an accomplishment from the last few years. It can be in any life domain: career, education, personal, health, contribution, etc. What artifact(s) could you use to represent this accomplishment and the skills, knowledge, experience you gained?

Describe how the accomplishment was important to your development? How is it relevant to your education, career, future goals? What did you learn in the process? What challenges did you overcome? What are you most proud of about this accomplishment?

What's next? In making this accomplishment what experience, knowledge and skills did you gain that are useful to current/future projects or goals? Did this accomplishment contribute to a larger, long-term goal? How might it shape your future goals?
